SEMINARS - for WEST LEEDERVILLE PS PARENTS **Triple P – Positive Parenting Program**

Most parents have times when they find their children's behaviour challenging.

The Triple P – Positive Parenting Program is world's most effective parenting programs.

Developed by clinical psychologist Professor Sanders and his colleagues at the University Queensland, Triple P has been tested with of families through ongoing research over 30 years.

“Children who grow up with positive parenting are more likely to develop the skills they need to do well at school, build friendships, and feel good about themselves.”
Prof. Matt Sanders

Triple P is designed to give parents the skills they need to raise confident, healthy children and to build stronger family relationships. Research has shown it works across cultures, socio-economic groups and in many different family structures.

Triple P doesn't tell people how to parent. Rather, it offers simple and practical strategies that parents can adapt to suit their own values, beliefs and needs. The benefits can be dramatic and long-lasting.

All West Leederville PS parents are invited to attend free a Triple P seminar in Term 4. Facilitated by our school psychologist Lauren Gabelich, and chaplain Corali Sala Tena the seminar will include a presentation and time for discussion and questions.

When: Monday 15th October 2018
Time: 9am – 11am
Venue: West Leederville Primary School
Meeting Room (next to staff room)
Cost: Free – however bookings are essential

URBAN ART WALK - Explore your local neighbourhood and your inner street artist at the same time.

Spend the day exploring, discovering, collecting, curating, designing and producing your own street art creations or produce an Urban street art inspired Zine. We encourage all participants attending this URBAN ART WALK to:

1. wear sturdy shoes
2. dress appropriately for the weather (hat, coat, etc)
3. bring a water bottle

Tuesday 2 Oct 9.30am - 3pm (\$80)

NATURE PAINTING - We've been inspired by the work of abstract painter Lorna Crane (NSW) and by UK artist Peter Ward and his painting with the earth series, not to mention the range of local Indigenous artists working with natural pigments.

Make your own paints and brushes in this fun ...and messy!... exploration of the colour and history of earthy, natural paints. Throughout the day you will refine your understanding about:

1. the science of pigments and paint,
2. elements and principles of art such as colour, pattern, contrast, unity and texture, and
3. the ways in which artists use these elements to compose artworks.
